Description

Additional mammeters not included in the NS documentation.

- ScrollSortMethod - allows you control over the way the newsflash items display (options: newest, oldest and random).
- ScrollTitles - show your newsflash titles with the display (options: yes or no).
- ScrollBehavior - control the scroll method (scroll, alternate, slide).

- ScrollWidth - controls the width (a pixel value).

Please report any bugs you may find at Mambotoy's help forum. Thanks!

NOTES:

Update : This version of the scroller now recognizes public, registered and start/finish dates set in the Newsflash publishing feature. These changes were suggested and code fragment offered by markrob3 and a friendly co-worker.

Update: May 11, 2005

I don't know how long this has been the case, but the download links on this page were pointing to an old location. So any previous updates may not have been reflected in any prior downloads. Simply meaning, download this new version. Sorry...
