Skill level :

- In Mambo Administration, click on Mambots->Install/Uninstall.
- Scroll to the bottom of the page and look for an input box labeled: Package File:, then click on Browse.
- Find the Mambot zip file that you want to install and click on it. Then click on Open (or whatever option completes the action that selects the file).
- Click on Upload File & Install.
- Publish the newly installed Mambot (go to Mambots->Site Mambots). Related topic: How do I uninstall a Mambot?
